

Embrace the glorious mess that you are

The distance between dreams
& reality is called action

You can do it!

Gewoon doen!

Just one step at a time

Don't give up, live begins at
the end of your comfortzone

Be open to whatever comes next

Think abundantly, energy
follows intention

You are awesome

YES!

Het gras groeit niet harder
door eraan te trekken

Be brave enough to be yourself

Be like a tree in a storm

Please, don't feed the fears

Be selective in your battles,
sometimes peace is better
then being right

If it makes you happy, who cares
what everyone else thinks

Expect miracles ♥

Try again tomorrow

relax

Don't forget to breath

What do you dream of today?

Honour your uniqueness

Time for a little dance

Stop! Did you smile today?

Do things with passion!

Love is the answer

Light your fire, girl!

Ask, believe, receive

You are so beautiful

Look for rainbows today

Trust the process

Make love not war

Pimp your journal, diary or
calendar with some uplifting quotes
